

CANNON 12K™

THE ONLY SIX SPEED PULLER WITH
REVERSE GEAR AND DUAL CAPSTANS

iTOOLco.

6 speed motor with
reverse gear

Customizable for each job site

Use for overhead,
underground, or side pulls

The fully self-contained, compact design of the Cannon 12K™ wire puller features the only 6-speed reversible motor that is sure to get even the heaviest pulls done in record time. Designed specifically for easy set up to meet job site demands, all parts store right on the puller. No gang box of parts needed. When extra extensions are used, the wire puller is capable of pulling out 13' of wire from the conduit opening. Gone are the days of pulling at only 6 feet per minute. iTOOLco's Cannon 12K™ pulls at speeds up to 48' per minute.

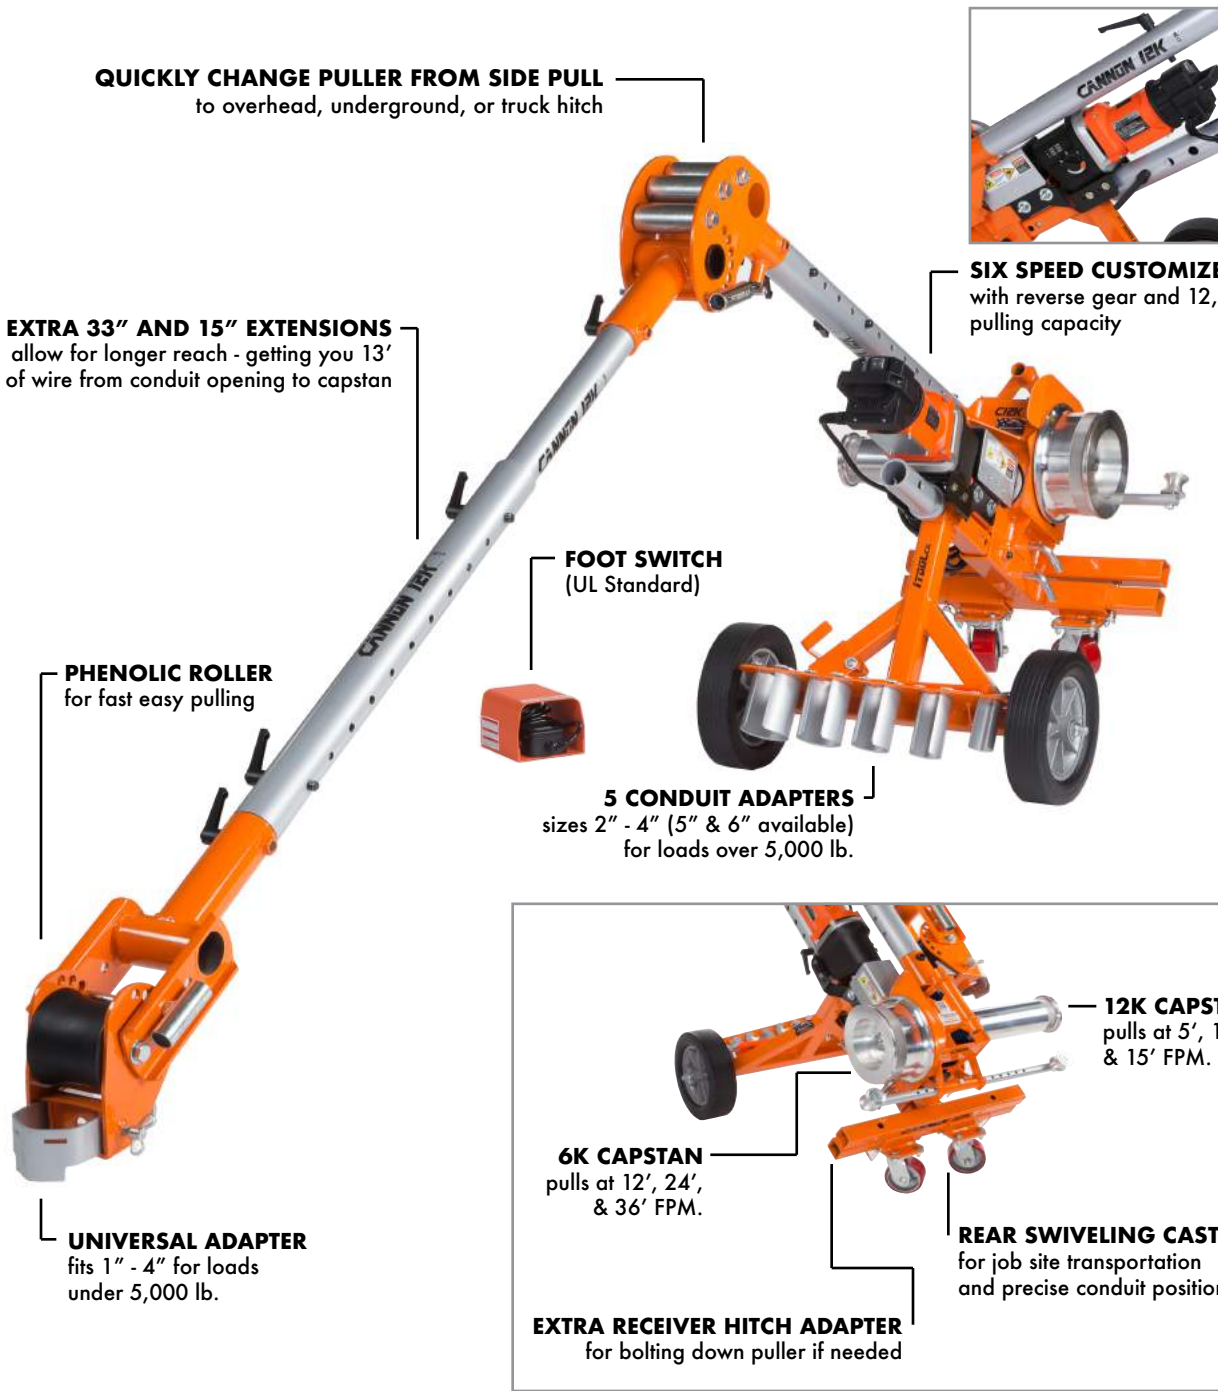

FASTER SAFER WORKSPACE
